Comments

Seminars can at times be a bit hard to follow as the questions are not on the Moodle page. On the slides used in the seminar, the question and answers are on different slides meaning that it can be hard to follow the logic. The format of the seminar could also include a bit more time for students to discuss questions with each other rather than just having the tutor go through questions in a PowerPoint.

He has good vibes.

The tutor explains concepts well and is well versed in the subject

The tutor did not always have answers to challenging questions I asked, but did always endeavour to find a response after class and would email it out to us.
